

IBM Enhanced Performance Wireless Keyboard and Optical Mouse let you work in a variety of environments

Overview

The IBM Enhanced Performance Wireless Keyboard and Optical Mouse use a 2.4 GHz R/F technology that does not interfere with Bluetooth or Wireless LANs. This product offers a 10-meter range. You can use it in large conference rooms together with a projector and in many other environments. Another benefit of this product is its ease of use. Unlike other wireless products that demand extensive setup, the IBM Enhanced Performance Wireless Keyboard only requires a driver install to begin operating.

This keyboard has the same layout as the IBM Enhanced Performance USB Keyboard, which allows you to complete your computing tasks faster, more efficiently, and comfortably. Seven reprogrammable hot keys open programs, documents, and Web sites. The keys are set at the factory with Lock Desktop, My Documents, Word Processor, Spreadsheet, Calculator, e-mail, and Internet. To reprogram the hot keys, a software utility is included that lets you print a custom legend for the hot keys.

A multimedia pod is included on the keyboard so you can easily control audio and video files, or launch your favorite media player. Microsoft™ Windows™ shortcuts are highlighted on the front skirt (front surface) of keys to help you perform tasks more efficiently.

The keyboard also includes a detachable wrist rest with a smooth rubberized coating and a three-way keyboard tilt adjustment. Also included is an Access IBM key, which gives you easy access to on-system and online information¹ from IBM. This Business Black keyboard is available in many major languages.

Also included in this kit is an optical wheel mouse that uses 2.4 GHz R/F technology. To use this keyboard and mouse with your ThinkPad® when you travel, use the small USB dongle and the mouse.

Key prerequisites

- IBM or IBM-compatible PC with USB port
- Microsoft Windows 2000 or Windows XP

¹ Requires Internet access, not included

Planned availability date

December 10, 2004

At a glance

The IBM Enhanced Performance Wireless Keyboard and Optical Mouse offer comfort, durability, and user productivity enhancements. Features include:

- Wireless 2.4 GHz R/F keyboard and mouse with 10-meter range
- No interference with other R/F technologies like 802.11b/g or Bluetooth
- Easy to set up and use
- Excellent battery life (uses three AAA batteries for keyboard; two AA batteries for mouse)
- Uses classic full-size keyboard layout
- Optical wheel mouse with smooth rubberized coating
- Internet forward and back keys on left side of keyboard, ideal for use with Web sites¹
- Business Black color — A perfect match for ThinkCentre™ or ThinkPad systems
- Keyboard includes:
 - Seven reprogrammable hot keys
 - Multimedia pod with audio/video controls, including key for opening media player
 - Common Windows shortcuts highlighted on front surface of keys
 - Three degrees of keyboard tilt adjustment
 - Detachable wrist rest with a smooth rubberized coating
 - Access IBM button

P.O. Box 12195
Research Triangle Park, NC 27709
Attn: Dept JDJA/B203

Help and service information — Features and options

During the warranty period you can obtain support for a warranty-related issue by accessing IBM online services (requires Internet access account, not included) or by calling the IBM Support Center, 24 hours a day, 7 days a week, to answer any questions regarding your new IBM option. Response time will vary depending on the number and nature of calls received. If you need warranty service, return or exchange is available. In addition, if your IBM option is installed in an IBM computer, you may be entitled to service at your location. For general questions related to the use of your options, fee-based support is available. Your technical support representative can help you determine the best alternative.

This announcement is provided for your information only. For additional information, contact your IBM representative, call 800-IBM-4YOU, or visit the IBM home page at: <http://www.ibm.com>.
