KNOW IBM ?   KNOW LEXMARK ?
THEN YOU ALREADY KNOW A LOT ABOUT US.

Introducing Unicomp, your key component

Yes, we're a new company. But no newcomer ever had a better family background. Or a bigger head start.

Our corporate history stretches only back to April, 1996, when we purchased keyboard technology from Lexmark, former manufacturer of IBM keyboards. But Unicomp employees average 20 + years of experience with those

Your Key Component

multi-national companies. And many of the same people, who in 1995 produced millions of keyboards for Lexmark customers worldwide, continue to manufacture keyboards for us today.

We even cover all Lexmark keyboard service and warranty agreements. Lexmark trusted us. You can, too.

We intend to be the keyboard industry's acknowledged leader in technology, quality, and service. In many ways, at our 100,000-square-foot home in Lexington, Kentucky, we're already near that goal.

Here's what we can do for you

KEYBOARDS

Pointing Stick keyboards

Trackball keyboards

Keyboards for IBM Terminals

Space-saving keyboards

CUSTOMIZATION CAPABILITIES

The Flexibility That Sets Unicomp Apart from the rest of the Industry

Unicomp Inc. is a lot more than just a keyboard manufacturer. Consider us a complete source for your custom needs, too. Not only do we provide cosmetic solutions (colored buttons, custom layouts, and corporate logos), we develop customized scan codes to meet several Terminal/PC requirements.

In addition to these great features, we'll even design a new product (based upon volume commitments) for you to incorporate into your product line. Our engineering team specializes in offering such new designs. We've even added a telephone to one of our keyboards!

Unicomp also features a repair center for most IBM/Lexmark keyboard models. If you have a keyboard that is no longer operating or could use a "makeover," give us a call. Our returns/service department strives to complete all small volume repairs within 48 hours of receiving your keyboard.

We even sell covers to keep your keyboard clean and to prevent spills and dust from ever damaging your keyboard again!

We even offer programmable models that enable the user to alternate between IBM compatible PCs and Terminal computers WITH THE SAME KEYBOARD!

The next time your job calls for a custom configuration, give us a call. We pride ourselves in being the best full service OEM in the business.

For more details, contact a Unicomp, Inc. representative toll free at 800-777-4886 or email us at unicomp@lex.infi.net. To view a complete list of IBM/Lexmark parts supported, please visit our website at www.pckeyboard.com.

WARRANTY INFORMATION

All Unicomp, Inc. keyboards sold within the continental United States are subject to the following warranty agreement:

Warranty

Unicomp warrants that this product is manufactured from new, or new and reconditioned parts that perform like new parts; is defect free in workmanship and materials; conforms to Unicomp's operating specifications and is in good working order. The warranty period is eighteen months from date of manufacture or twelve months from date of original purchase whichever is greater. The warranty is fully transferable during the warranty period.

Warranty Service

If this product does not function as warranted during the warranty period, return it to Unicomp for repair or replacement free of charge. For express service and Return Authorization and shipping instructions enter your warranty claim via the Internet at **www.pckeyboard.com.**

If you do not have access to the Internet, call Unicomp at 1-800-777- 4886 for return authorization and shipping instructions. Should Unicomp determine that product exchange is required, the product replaced becomes the sole property of Unicomp. The replacement product assumes the remaining warranty period of the original product. Replacement is not available for products that are defaced, altered, in need of repair not included within warranty service specifications, or damaged beyond repair. Also, any product must be free of any contracts or legal obligations that would prevent or limit its exchange.

Extent of Warranty

Warranty service excludes repair of defects caused by misuse, accident, modification, improper operating environment, improper maintenance, or failure caused by a product for which Unicomp is not responsible. ALL EXPRESSED AND IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THE WARRANTY PERIOD. NO WARRANTIES, EXPRESS OR IMPLIED, WILL APPLY AFTER THIS PERIOD.

Limitation of Liability

The ONLY solution under this Statement is set forth in this section. You may recover actual damages up to, but not exceeding, the limit set forth in the following paragraph concerning the performance or nonperformance of this product.

Unicomp's liability for actual damages from any cause whatsoever will be limited to the amount paid for the keyboard which caused the damages. In no event will Unicomp be liable for damages caused by your failure to fulfill your responsibilities under this Statement of Limited Warranty. In no event will Unicomp be liable for any lost profits, lost savings, incidental damage, or other economic consequential damages. This is true even if you advise Unicomp or a reseller of the possibility of such damages. Unicomp is not liable for any claim by you based on a third party claim.

Additional Rights

Some states do not allow limitations on the length of an implied warranty, or do not allow the exclusion or limitation of incidental or consequential damages. If such laws are applicable, the provisions contained within this statement may not apply to you. This warranty provides you with specific legal rights. Additional rights may also apply and vary from state to state.

All products purchased outside of the continuous 48 States or Abroad are shipped without warranty. Units shipped directly from Unicomp's facility to the purchasing party's facilities deemed dead on arrival will be evaluated and replaced at no cost to the purchaser. All other warranty terms and conditions do not apply. Any product that, upon return, is deemed a user-induced failure will be subject to the standard repair rates as specified in the Pricing & Repair Information Sheet on this CD.

THE ENDURAPRO™ 104 KEY KEYBOARD

Expect More From Your Keyboard!

Features

- IBM® PS/2®, AT® and compatible models
- Curved profile, user-adjustable angle requires 20% less desk space
