

IBM xSeries options assigned new part numbers

Overview

IBM releases new part numbers for existing products to track inventory manufactured using updated manufacturing process methods or materials required for sale in certain jurisdictions, such as the European Union. The features and functions for which these products were designed remain unchanged despite the addition of new part numbers.

International Warranty Service (IWS): IWS is available during the warranty period to customers who travel or relocate to countries where their computer is sold and serviced by IBM or IBM resellers authorized to perform warranty service. Eligible IBM computers are identified by their four-digit machine type.

You can obtain IWS through the method of service, such as depot, carry-in or on-site, provided in the servicing country. Service methods and procedures vary by country, and some service or parts may not be available in all countries. Service centers in certain countries may not be able to service all models of a particular machine type. In addition, some countries may have fees and restrictions that apply at the time of service.

To determine the eligibility of your computer and to view a list of countries where service is available, visit

<http://www.ibm.com/pc/support>

Click on the Warranty Lookup tab.

For more information on IWS, refer to Services Announcement 601-034, dated September 25, 2001.

Help and service information — Features and options

During the warranty period, support for a warranty related issue can be obtained by accessing IBM's online services (requires Internet access account, not included) or calling the IBM Support Center at 800-IBM-SERV (426-7378) 24 hours a day, 7 days a week, to answer any questions regarding your new IBM option. Response time will vary depending on the number and nature of calls received. If you need warranty service, return or exchange is available. In addition, if your IBM option is installed in an IBM computer, you may be entitled to service at your location. For general questions related to the use of your options, fee-based support is available. Your technical support representative can help you determine the best alternative.
