**Product Information****Space Saver II Keyboard - Product Overview**Applicable to: **World-Wide**

- Product  **Publications** page.

**General Information**

The IBM Space Saver II Keyboard is a space-efficient version of IBM's popular TrackPoint Keyboard. Only 14.5 inches wide, it is designed to use minimum desk space while offering maximum productivity. The Space Saver II Keyboard is a perfect match for:

- Rack mounted servers
- ThinkPad docking stations
- Port replicators
- Other applications with space constraints

Features include:

- 14.5-inch width
- TrackPoint IV pointing device
- Three cursor buttons located below the space bar
- A mouse port for attaching an external pointing device
- High-quality keys (same as IBM full-size keyboards)
- Stealth black color on a unique industrial design
- Drivers for IBM OS/2 and Microsoft Windows (R) 95, 98, and NT 4.0
