## The Lexmark Classic Touch™ 101-Key Keyboard

Winner of the Editors' Choice award and *PC Computing's* choice for best keyboard, the Classic Touch 101-Key Keyboard has been the choice of millions of consumers because of its unique feel. This keyboard has earned its worldwide reputation as a trouble-free model of efficiency.

Also available is a quieter and lighter-touch Enhanced QT version featuring rubber dome technology for noise-sensitive environments.

Want the keyboard that has been independently acclaimed as the world's best? Get the Classic Touch 101-Key Keyboard.

### Features

- IBM® PS/1®, PS/2®, AT® and compatible models
- Curved profile, user-adjustable angle
- Spill resistant design
- Numeric keypad
- Worldwide language availability

## The Lexmark Classic Touch 101-Key Keyboard with Integrated 25mm Trackball

With this special Classic Touch 101-Key Keyboard, you'll always have a mouse within reach because one is built in.

Thanks to an innovative trackball, you never again have to worry about clearing enough room on your desk to move a mouse around.

PS/1, PS/2 and AT computer users can attach the Classic Touch Keyboard with 25mm trackball to their systems and enjoy the standard keyboard layout they're already accustomed to, as well as the convenience of a built-in mouse for their OS/2®, Windows® and other graphics applications. This model is also available with the Erase-Eaze® option to make corrections easier and quicker.

### Features

- IBM PS/1, PS/2, AT and compatible models
- Curved profile, user-adjustable angle
- Spill resistant design
- Numeric keypad
- Erase-Eaze option
- Worldwide language availability
- Removable trackball for easy cleaning
- "Mouse 1" and "Mouse 2" buttons with locks

## The Lexmark Classic Touch 101-Key Keyboard with Integrated Pointing Stick and Erase-Eaze Option

The same critically acclaimed pointing device found exclusively in notebook PCs is now at your fingertips in a desktop PS/2 keyboard. The award-winning Classic Touch Keyboard has a pointing stick built right in, making it much easier to move around the screen.

It's positioned in the home row area so whether you're left- or right-handed, you can easily move the pointer without moving your fingers from the keyboard.

Need to make fast corrections? The optional Erase-Eaze feature on this keyboard can help.

### Features

- IBM PS/1, PS/2 and compatible models
- Curved profile, user-adjustable angle
- Spill resistant design
- Numeric keypad
- Erase-Eaze option available
- Worldwide language availability

## The Lexmark Select-Ease Keyboard, an innovative design for personal flexibility

The Select-Ease™ Keyboard can be adjusted to your individual idea of comfort. This keyboard features an innovative design for flexibility and adjustability, allowing you to shape it into any number of different positions. You can even split the Select-Ease into halves.

The Select-Ease allows you to find the position that suits you best, whatever your desk or workstation

layout. Or, you can alternate between various positions for a change of pace.

Other comfort features are the Lexmark classic touch and feel, an oversized spacebar and palm rests. We've even made erasing easier by making Erase-Eaze a standard feature. Want flexibility? The optimum is Select-Ease.

### Features

- IBM PS/1, PS/2, AT and compatible models
- User-adjustable keyboard (tilts, swivels or separates)
- Spill resistant design
- Numeric keypad option
- Left/right set of cursor keys
- Includes Erase-Eaze spacebar
